

Paramount and Twinkl Announce Latest Collaboration to Bring Pizza-Powered Learning to Classrooms

Themed resources mark launch of new 'Tales of Teenage Mutant Ninja Turtles' series on Paramount+

Sheffield, UK, August 9th 2024: Twinkl, the leading educational publisher, and Paramount, the global media and entertainment company, today unveiled a new collaboration with the launch of free Teenage Mutant Ninja Turtle-themed teaching resources, giving educators even more engaging ways to teach key skills to learners.

The free to access education content is available via the Twinkl website, containing curriculum-linked English and maths resources - including pizza slice fraction activities, an 'escape the sewer' addition/subtraction maze challenge, as well as a literary exploration of New York City with the eponymous heroes.

"Following the tremendous success of our PAW Patrol learning resources in 2023, which positively impacted an estimated 2.7 million children, we're thrilled to be working with another famous Paramount brand," commented Mark Wilson, Head of Strategic Partnerships, Twinkl. "The new Teenage Mutant Ninja Turtles series is set to captivate audiences with its dynamic storyline and relatable themes, making it ideal to help enrich education experiences in the classroom or at home."

The new TV series, which hits global screens on August 9th 2024, sees the Turtles manage their lives as crime-fighting heroes, whilst also dealing with the teenage pressures of attending high school in New York City.

For more information and to access the free 'Tales of Teenage Mutant Ninja Turtles' resources, please visit the Twinkl [website here](#).

Cowabunga, dudes!

About Twinkl

Twinkl was founded in 2010 in Sheffield by husband and wife Jonathan and Susie Seaton with a mission 'to help those who teach'. The company provides high quality online learning materials and services, which are all teacher-created and checked.

Twinkl offers over one million resources via its website, with new content added daily - ranging from classroom content and assessments, to AI tools, augmented reality games and much more. Twinkl is used and trusted by schools and educators in over 200 countries and regions, including primary and secondary school teachers, nursery workers and parents.
